

## TURF WITH SUPERthrive VITAMIN SOLUTION

Turf care professionals and homeowners alike turn to SUPERthrive to assist with turf year-round.

SUPERthrive increases root growth; reinforcing turf against stress and maintaining your fields during heavy use. Our non-toxic formula is environmentally friendly and perfectly safe around your families, pets, and athletes.

Our water-soluble formula can be applied via irrigation, foliar sprayers, or hose-end sprayer. SUPERthrive can be used with all organic and synthetic fertilizers. For best results, use SUPERthrive in conjunction with your fertigation system and reinforce your entire property against stress and diseases.

### DOSAGE AND INSTRUCTIONS

- **Tank Irrigation and Fertigation** - 3 oz of SUPERthrive per 100 gallons of water
- **Foliar Spray** - 1/4 tsp. per gallon of water (3 oz per hundred gallons)
- **Sprinkler System** - refer to Irrigation in our methods section

### SUPERTHRIVE OUT ON THE GREEN: TURF TIPS!

- Use SUPERthrive as a foliar spray on your greens to maintain peak performance!
- Apply SUPERthrive via foliar spray as a spot treatment when swapping cups on golf greens.
